I am a current member and remember my old username and password from the old site. Can I log in here with that?

in [log in](#) [1] [questions](#) [2] [website faq](#) [3]

If you are lucky enough to remember your username and password from the old site (!) , you can use them to log in here.

However, all members will be asked to create a new username that is NOT your email address for reasons of security. Trust us, you will thank us for the spam you will not be getting as a result.
